01 Summary

Software Engineering graduate from Haramaya University with hands-on full-stack experience across Flutter, NestJS, and Next.js. Comfortable owning a feature end-to-end - from a Postgres schema and REST/GraphQL API to a polished Flutter or React interface. Built five personal products spanning e-learning, real-time multiplayer, and language-preservation tools, with a particular interest in software that serves underrepresented communities and languages.

02 Experience

Full-Stack Developer Intern 5 months
Haramaya University

- Developed and maintained full-stack features spanning frontend interfaces and backend APIs.
- Worked across the stack from database design to UI implementation, collaborating with a small team.
- Applied academic coursework to real, in-use systems, tightening the loop between theory and shipped code.

Flutter Developer (Remote) 4 months
Evergreen

- Built and maintained mobile app features in Flutter as part of a distributed remote team.
- Implemented UI components and integrated backend services, following existing app architecture and BLoC patterns.
- Communicated asynchronously with a remote team to deliver features on schedule.

03 Projects

EthioStudy
An e-learning platform built for Ethiopian learners - a local take on Udemy-style course delivery.

NestJS

Next.js

Flutter

Bible App
Reading app and companion website offering 10 Bible versions, including full audio narration.

Flutter

Web

Audio

PNG
Online multiplayer number-guessing game with real-time gameplay and live chat between players.

WebSocket

Real-time

Dha Anywaa Quiz
Quiz app for the Anywaa language with a global leaderboard, built to support language learning and preservation.

Flutter

Firebase

04 Education

B.Sc. in Software Engineering
Haramaya University
